AWL INDIA operates over 1 Million Sq.Ft of professionally managed, secure, dry storage space PAN INDIA at warehousing facilities located in

- Mumbai
- New Delhi
- Gurgaon
- Chennai
- Kolkata
- Bengaluru
- Ahmedabad
- Lucknow
- Jaipur
- Indore
- Hyderabad
- Cochin
- Nagpur

We provide comprehensive warehousing and value added logistics services with a diverse portfolio of customers and industry experience.

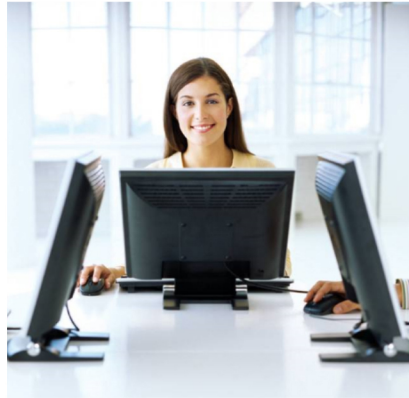

- AWL multi-client warehouses offer flexible space at a variable cost which can expand or contract based on your exact business needs
- AWL has significant experience with complex pick/pack operations, breaking down pallets and shipping individual cases to fulfill individual orders.
- Flawless management of your inventory is our top priority. With regular cycle counts and best in class processes, AWL provides reliable inventory management solutions
- Long-tenured management, warehouse workers & drivers
- Operational focus on high-productivity for both labor and space.
- Dedicated transportation service

With AWL, you will know you have a 3PL company you can count on... because you will work with the best staff in the industry. Because we reward excellence, we can boast of low turnover in our warehouse, transportation services and driver personnel. All this translates in to highest quality service and professional results.

Move with us to make a DIFFERENCE

Real-time Inventory Management

At AWL, we understand the need for immediate access and availability of data and reports to our customers, keeping them updated at all times. This is why, AWL has resources working thoroughly to make the logistics activities online and easily accessible to our clients. We have replaced the spreadsheets with software screens. All our facilities are barcode enabled and we motivate our clients to make use of this technology to improve accuracy and visibility throughout the chain of activities.

AWL has developed its own WMS, and has incorporated numerous features with various combinations of logistics requirements based upon the activities we handle for all of our customers from different verticals and industries.

API enabled, our systems can talk directly to almost any ERP available in the market today. We have successfully integrated our system with major online retailers and market place entities. Generation of barcodes, invoices and packing lists directly from our systems has reduced the workload on our customers and has also improved efficiency by eliminating the time gaps of sending data from customers to warehouse facilities.

1

Y(OUR) CUSTOMER

It's not simply about *WHAT* we do, it's *HOW* we do it.

We listen to our customers and take on their goals as our own. We know that consumers are demanding, their expectations rising and to compare retailers to find the best deal is making customer loyalty increasingly difficult to achieve.

To help our customers fulfil their targets and retain their hard-earned customers **AWL** always goes the extra mile to deliver great customer experience at the lowest possible cost, delivering our retailers savings which they can pass down to the consumer.

2

OUR EXPERTISE

AWL works with some of the top retailers in India from all sectors. With this unparalleled level of retail expertise, combined with a robust infrastructure of warehousing and transport facilities, **AWL** offers flexible and scalable solutions which:

- ✓ improve on-shelf availability and inventory management
- ✓ handle seasonal peaks
- ✓ manage container movements
- ✓ deliver to stores or to homes
- ✓ implement e-commerce fulfilment
- ✓ create value from returns
- ✓ support store rollouts, refits or closures

3

DELIVER EXCELLENCE

AWL brings supply chain value to retailers of all sizes, from the well-known high street retailers to niche brands, and across all sectors including grocery, furniture, cosmetics, fashion, general merchandise and office equipment.

We support our retail customers at every step along their supply chain, from managing inbound suppliers and container shipments through to e-fulfilment, home delivery and returns management.

In this progressive retail market, a well managed supply chain becomes a highly competitive differentiator.

LOGISTICS SOLUTIONS

SOLAR & SEMI-CONDUCTORS

The solar panel industry is growing rapidly, with solar energy and semi conductors becoming a popular energy alternative. When it comes to logistics and distribution and installing of these panels, there are unique challenges. Its large size, delicate & high-tech nature and tight timeframes for deliveries often makes storage, shipping and handling a concern.

AWL offers a *distribution solution* to decrease your costs and increase your efficiency across your supply chain, all the way to the end user. *Logistics forecast, planning, packaging design and load optimization* are just some of the ways to *make you more efficient*. Our experts also can devise the route plans. With our end-to-end global logistics, you can make the most of the opportunities across the globe and grow your business.

Using our vast knowledge of tariff classifications, duty management and compliance regulations, our expertise in years of working with semi-conductor industry, we can tailor the most secure and cost-efficient service to your need for supply chain solutions *from manufacturing till installation sites*.

Complete Door to Door Supply Chain Solution & Services provided through a single source using a cumulative experience of over 500 years and a team of over 350+ experts in various aspects of logistics. Covering 107 countries and 1000+ cities in India, AWL caters its customers with a personalised service & global standards.
